PROFILE

Passionate web developer skilled in HTML, CSS, JavaScript, and React.js, with a love for creating dynamic and user-friendly websites. Always eager to learn and explore, I stay excited about new technologies and continuously seek opportunities to grow and innovate in the ever-evolving field of IT.

WORK EXPERIENCE

Industrial Training

Auribises, Ldh   2023

- Learned React Native and applied knowledge to develop a notes app for Android.
- Designed and implemented features including [mention any specific features or functionalities].
- Gained practical experience in mobile app development, including UI/UX design and integration with device features.

PROJECTS

E-commerce Website (React JS)

- Developed the frontend of an e-commerce website using React.js, focusing on product listings, shopping cart functionality, and a responsive user interface.
- Designed an intuitive and modern UI for a seamless shopping experience, ensuring compatibility across different devices.
- Implemented React Context API for state management, enabling efficient handling of cart items, promo codes, and user interactions.
- Created reusable components to ensure scalability and maintainability of the application.

Portfolio Website (React JS)

- Created a personal portfolio website using React.js to showcase skills, projects, and professional experience.
- Designed and implemented a clean, modern user interface with responsive design to ensure compatibility across devices.
- Leveraged React's component-based architecture to maintain flexibility and scalability as new sections and features are added.

Quiz App (React JS)

- Built an interactive quiz application using React.js, featuring score tracking, and feedback for correct and incorrect answers.
- Implemented responsive design to ensure a smooth experience across various devices and screen sizes.
- Utilized React's component-based architecture for modular, reusable UI elements and efficient state management.
